1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 2, 5-10, 13-16, 25-45, 187-200, drawn to a method and system for synchronizing transmission of compressed headers between a transmitter and a receiver, classified in class 370, subclass 503.
  - II. Claims 17-24, drawn to a method and system for decompressing a compressed header in a packet, classified in class 375, subclass 240.
  - III. Claims 46-95, drawn to a method for reducing number of bits in headers of a sequence of data packets, classified in class 348, subclass 384.
  - IV. Claims 96-158, drawn to a method for transmitting packets by processing compressed header for routing purpose, classified in class 370, subclass 392.
  - V. Claims 159-186, drawn to a method for regenerating headers of compressed packets with packet sequencing/resequencing, classified in class 370, subclass 394.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as data synchronizer, invention II has separate utility such as data compressor/decompressor, invention III has separate utility such as packet header bits reducing device, invention IV has separate utility such as data

routing device, and invention V has separate utility such as data sequencer/resequencer. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alpus H. Hsu whose telephone number is (703)305-4377. The examiner can normally be reached on M-F (5:30-3:00) First Friday Off.

Art Unit: 2665
